Choosing Microsoft Outlook 2003

We begin by selecting the Start button and choosing Microsoft office Outlook on the Start menu.

Outlook 2003 Startup Wizard

The Outlook 2003 Startup wizard will begin. We choose the Next button to continue.

Email Accounts

We can configure Outlook to connect to an Internet Email server or an Exchange server by opting for the Yes radial button. We pick the Next button to continue.

Account Configuration	×
E-mail Accounts	×
You can configure Outlook to connect to a Microsoft Exchange Server, Internet E-mail, or other E-mail server. Would you like to configure an E-mail account?	
⊙ Yes O No	
< <u>B</u> ack <u>N</u> ext >	Cancel

Server Type

We then choose our server type and we will opt for our organization's Exchange server. We push the Next button to carry on.

E-mail Accounts

Server Type

You can choose the type of server your new e-mail account will work with.

Microsoft Exchange Server

Connect to an Exchange server to read e-mail, access public folders, and share documents.

<u>ор</u>орз

Connect to a POP3 e-mail server to download your e-mail.

O <u>I</u>MAP

Connect to an IMAP e-mail server to download e-mail and synchronize mailbox folders.

< <u>B</u>ack

<u>Н</u>ТТР

Connect to an HTTP e-mail server such as Hotmail to download e-mail and synchronize mailbox folders.

<u>Additional Server Types</u>

Connect to another workgroup or 3rd-party mail server.

New Outlook Account Made

Our new Outlook account is made and we click on the Finish button to enter our email application.

E-mail Accounts		×
	Congratulations! You have successfully entered all the information required to setup your account.	
	To close the wizard, click Finish.	
	< <u>B</u> ack Finish	

Microsoft Outlook

We select the New hyperlink to send our test email.

Test Email

We write a test email and select the send button to send it to another user on our domain and the Exchange server.

Return of the Test Email

A few minutes later, our coworker returns the email and we our now established on the organization's domain and Exchange server.
